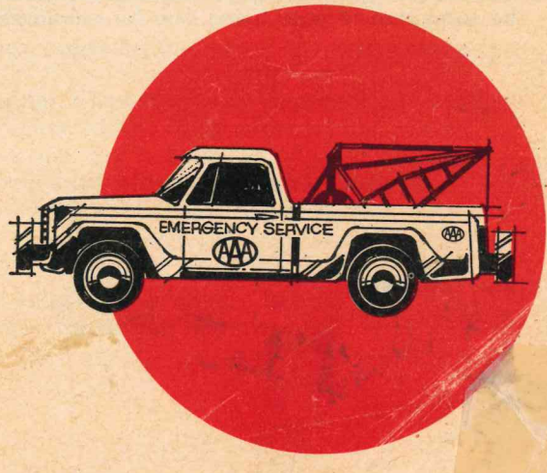
Virginia • West Virginia • Wisconsin

New Brunswick • Newfoundland • Nova
Scotia • Ontario • Prince Edward Island
Quebec • Canal Zone

This book is published for the exclusive use of AAA members. It is not for sale.



Using Your Directory

For your convenience, AAA publishes this complete directory of the service stations and garages that are under contract with AAA. These stations have been carefully selected for their competent rendering of those emergency services required by AAA members. AAA welcomes letters from members regarding either exceptional or unsatisfactory service received from AAA stations.

Establishments are listed under the nearest appropriate town. Following the name of the garage or station are the phone numbers to call during the day **D,** at night **N,** or at all times **D & N.** The letter **W** indicates wrecker service.

If a number appears in parentheses after the name of the town, it corresponds to the number of the club with which the station has a contract. In some states, however, all AAA stations are under contract with one club. A note as to which situation applies precedes the listings in each state. All clubs are listed in the back of the book.

When You Need Help

First, find the nearest AAA contract service station in your Emergency Service Directory. Unless you're instructed to call the local AAA club, telephone directly to the garage. Give your name, address and membership number; the make, model, year and license plate number of your car; its exact location and symptoms; and the telephone number from which you are calling.

Should your trouble occur on a turnpike, freeway or other controlled-access highway, pull onto the shoulder as far as possible and stop. Raise the hood; hang a white cloth from the driver's side of the car. Then await the arrival of a police officer or emergency vehicle. On some controlled-access highways, AAA service will be summoned upon request.

In areas where there are no AAA contract stations, call the nearest garage and pay for the service. Obtain a receipted bill to be submitted to your home club for consideration.

What You Should Know About Your Car

PREVENTIVE MAINTENANCE MEANS A CAREFREE TRIP

To insure a safer, trouble-free trip take your car to your favorite AAA serviceman for a thorough checkup—you'll be glad you did. Here is a list of items that should be given particular attention:

TUNEUP

An engine tuneup is always a wise investment. Have the ignition points, spark plugs, battery, voltage regulator, generator and all wiring checked. Be certain that the mechanic inspects the muffler and tailpipe.

LUBRICATION

A thorough lubrication job will lessen wear on vital moving parts. Change to the grade of oil recommended for the driving conditions you expect to encounter. Install a new oil filter cartridge. Check all hydraulic fluid levels.

COOLING SYSTEM

Have the cooling system cleaned and flushed; refill with a good permanent-type antifreeze or add a rust inhibitor. Have the thermostat, fan belt and water pump checked.

BRAKES, TIRES, WHEELS

Have the brake linings inspected and check the brake seals. Have the tires rotated; replace worn or damaged tires to eliminate blowouts and flat tire worries. Check the wheel alignment and balance—unaligned and unbalanced tires cause excessive and uneven wear. Be sure shock absorbers are in good condition. In addition to causing discomfort, bad shock absorbers can be dangerous.

VISION

Windshield wipers, headlights, turn signals, backup and brake lights should all be checked for perfect operation.

WHAT causes automobile breakdowns?

From the AAA's yearly report on Automobile Breakdowns, here are the major causes and frequency of the automobile difficulties experienced in the U.S.:

CAUSE	NUMBER	% OF TOTAL BREAKDOWNS
Battery & Electrical	41,400,000	49.3%
Tires	11,800,000	14.1%
Tow or Wrecker	17,600,000	21%
Out of gas	2,900,000	3.4%
Fuel System	2,100,000	2.5%
Lock & Key	1,500,000	1.8%
Brakes	700,000	.8%
All others	6,000,000	7.1%

TOTAL BREAKDOWNS	TOTAL PASSENGER CARS
84,000,000*	101,237,000

***Caring for your car means added driving pleasure and greater safety!**

WETHERSFIELD (7)—Call Club, **D&N** 236-2511.

WILBUR CROSS PARKWAY

The Parkway is patrolled by the Connecticut State Police, who will assist all disabled vehicles. If your car breaks down, drive it off the paved surface of the highway. When the Connecticut State Police officer arrives request AAA service. Telephones are located at all toll stations and gasoline stations. If you need mechanical service call the nearest AAA office as follows: Hartford, 236-2511; New Haven, 288-7441.

FLAMINGO—See Homestead.

FLORIDA CITY—See Homestead.

FLORIDA TURNPIKE

If your car becomes disabled on the Florida Turnpike, drive to the right entirely off the pavement, and hang a white handkerchief or white cloth out of the driver's window. This distress signal will be seen by a State Highway Patrolman. Garages along the turnpike under contract with the Turnpike Authority are also approved AAA garages. State troopers, who check all stopped cars, carry a supply of gasoline and will furnish enough fuel, without cost, to enable a stranded motorist to reach the next service area.

FORT LAUDERDALE (12)—Call Club, **D&N** 525-4294.

ILLINOIS TOLL ROADS

If your car becomes disabled on an Illinois Toll Road, drive off the concrete pavement, raise hood of car or hang a white handkerchief out of driver's window. This will signal to the patrolman or other toll road personnel who will stop and assist you or send the necessary assistance to you. When contacted by toll road patrolman, identify yourself as an AAA member and request official AAA service. Stay with your vehicle.

INDIANA TOLL ROAD

If your car becomes disabled on the Indiana Toll Road, drive off the pavement, raise hood of car or hang a white handkerchief out of driver's window. This will be a signal to the patrolman who will stop to assist you or send a service vehicle tp you. Stay in your car. When contacted by toll road representative, identify yourself as an AAA member.

Valley Serv. Sta., **D&N** 728-4410.

MAINE TURNPIKE & INTERSTATE 95

If your car becomes disabled on the Turnpike, drive off travel lanes and raise car hood as a signal to State Police who patrol the Turnpike. Service stations on the Turnpike are under contract with AAA but do not have wrecker or crane service. If your car requires towing, specify to the officer or Turnpike personnel that AAA service is requested. Police patrol and Turnpike dispatchers are provided with names and telephone numbers of AAA garages adjacent to the Turnpike that are equipped for towing and repairs.

There are no service stations directly on the toll-free portions of Interstate 95. AAA has selected as official garages, adequately equipped stations located nearest Interstate 95 exits. When emergency service is needed, always specify to the person relaying your call, that AAA service is requested. State police have names and telephone numbers of AAA official garages adjacent to Interstate 95.

MANCHESTER—Manchester Serv. Sta., **D** 623-9727, **N** 622-5149.

JFK MEMORIAL HIGHWAY

The Highway is patrolled by Maryland State Police, who will assist all disabled vehicles. If your car breaks down, drive it off the paved surface of the highway, hang a white handkerchief out of the driver's window and await the arrival of a State Police officer or Highway vehicle. (Emergency parking is permitted on the paved shoulders). The State Police officer will arrange for the AAA service needed.

FREDERIC E. EVERETT HIGHWAY

The Highway is patrolled by New Hampshire State Police, who will assist all disabled vehicles. If your car breaks down, drive it off the paved surface of the highway, hang a white handkerchief out of the driver's window and await the arrival of a State Police officer or Highway vehicle. (Emergency parking is permitted on the paved shoulders.) The State Police officer will arrange for the AAA service needed.

NEW HAMPSHIRE TURNPIKE

The Turnpike is patrolled by the New Hampshire State Police, who will assist all disabled vehicles. If your car breaks down, drive it off the paved surface of the highway, if possible, hang a white cloth or handkerchief out of the driver's window, and await the arrival of State Police officer or Turnpike vehicle. (Emergency parking is permitted on the paved shoulders.) There are no service stations on the Turnpike itself, but the State Police officer will arrange for AAA service needed.

OHIO TURNPIKE

If your vehicle becomes disabled—PULL ONTO RIGHT-HAND SHOULDER. SIGNAL FOR AID by raising the car's hood and fastening a white cloth to the outside left front door. STAY IN YOUR CAR until help arrives. DO NOT attempt to walk or hitchhike. A service truck will come to your aid.

The following garages (listed west to east) are authorized by the Ohio Turnpike Commission to service disabled vehicles on the Turnpike and will honor AAA membership cards for emergency service up to specific limits.

PENNSYLVANIA TURNPIKE

If your car becomes disabled on the Pennsylvania Turnpike, drive off the paved surface of the high- way, if possible, and hang a white handker- chief out of the driver's window. The white handkerchief, the Turnpike's customary distress signal, will be noted by one of the State Police cars or authorized service trucks which patrol the Turnpike day and night. The garages along the right-of-way are under contract with the Turnpike Commission and each is a qualified re- pair service of the AAA.

NEVER LEAVE VALUABLES IN YOUR CAR!

Garages and parking lots may not be responsible legally for the loss or theft of articles from your car.

Assurance sometimes is made by garages and parking lots that baggage, clothing, cameras or other property will be safe if left in your car.

Disregard such assurances! You may have no legal claim if your property is missing.

Let's Clean Up America For Our 200th Birthday

Be a Gas Watcher

Make 5 gallons do the work of 6.

It's easy when you know how. All it takes is some willpower and the tips below.

YOUR CAR

- Keep the engine in tune. Check plugs, points, fuel and air filters and emission control devices.
- Keep tires inflated to the maximum recommended pressure.
- Prevent gas-tank overflow by not filling it to the neck.

PLAN AHEAD

- Select the optimum route in terms of distance and type of highway. An AAA Travel Counselor can assist you.
- Travel light and avoid using a car-top rack. The less weight and wind resistance, the better the mileage.
- Combine short trips, such as visits, errands and shopping.

YOUR DRIVING

- The most economical speed varies from car to car. Therefore, find and maintain the moderate, legal speed that is best for your vehicle.
- Accelerate smoothly and gradually; fast "getaways" eat gas.
- Maintain a steady speed as traffic permits.
- Anticipate traffic signals to minimize stop-and-go driving.
- Build up speed before reaching an up-hill grade, not on it.
- Turn off the engine if you must park for more than a minute.
- Reduce long warm-ups by driving slowly rather than idling a cold engine.
- Reduce the use of air conditioning.

AAA

WHEREVER YOUR TRAVELS TAKE YOU, YOU'RE AMONG FRIENDS WITH AAA!

This directory of AAA Emergency Service outlets has been published for your convenience. It contains the names and telephone numbers of many of the AAA "friends" whose services are available to you in the areas through which your trip will take you. Naturally, we hope you won't need it, because breakdowns are never really convenient—no matter where they occur. It will serve as a guide, however, to the most reliable service stations and garages along your route.

You will also find that you have friends in the over 870 motor clubs and branches which comprise the American Automobile Association. These men and women are dedicated to serving you and helping you with all your travel needs. So, when travel difficulties arise, stop in at the nearest AAA office for cordial, friendly assistance.

We appreciate your giving us this opportunity to serve you and to counsel with you on your travels. We hope your trip proves to be a very pleasant one, as trouble-free as possible and one of your most enjoyable experiences.
